INTERNATIONAL SEARCH REPORT

International application No. PCT/FI2004/000439

Box No. I	Nucleotide and/or amino acid sequence(s) (Continuation of item 1.0 of the first sneet)
1. With	regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed tion, the international search was carried out on the basis of:
	pe of material
57	a sequence listing
	table(s) related to the sequence listing
L_	
b fo	ormat of material
5. 15	7
<u> </u>	7
IZ.	3 III comparer reactions term
c. tis	me of filing/furnishing
_	contained in the international application as filed
<u> </u>	filed together with the international application in computer readable form
ř	furnished subsequently to this Authority for the purposes of search
L	¬
2.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
